

FAIRMODE PLENARY MEETING AGENDA: 18-02-2020

13:00-13:30	Welcome address	
13:30-14:00	DG ENV views	V. Franco
14:00-14:45	The FAIRMODE 2020-2022 roadmap (20' + discussion)	P. Thunis
14:45-15:25	Source apportionment to support AQ management (20'+ discussion)	G. Pirovano & A. Clappier
15:25-16:00	Development of an overall QA/QC protocol for AQ assessment (20'+ discussion)	P. Thunis & L. Tarrason
Coffee break		
16:30-17:00	Quality control indicators for forecast (15' + discussion)	S. Janssen & P. Durka
17:00-17:30	Micro-local scale air quality modelling (15' + discussion)	F. Martin & S. Janssen
17:30-18:00	Best practices for local and regional AQ management (15' + discussion)	E. Pisoni & C. Guerreiro

FAIRMODE PLENARY MEETING AGENDA: 19-02-2020

09:00-09:40	Near real-time assessment with low-cost sensors (20'+ discussion)	J. Wesseling
09:40-10:10	Urban scale emission inventories (15'+discussion)	M. Guevara & S. Lopez
10:10-11:00	Exposure and exceedance model indicators and network optimization (20'+ discussion)	S. Janssen & L. Tarrason
Coffee break		
11:30-12:00	Effectiveness and robustness of air quality projections (15'+discussion)	A. Monteiro & E. Pisoni
12:00-12:10	Update on CEN TC WG43 ("Model quality objectives")	A. Karpinen
12:10-12:20	Update on CEN TC WG44 ("Source apportionment")	G. Pirovano
Lunch break		
14:00-14:20	The InDust Cost action and potential links to FAIRMODE	A. Monteiro
14:20-14:40	Update on EIONET activities relevant to FAIRMODE	A. Gonzalez
14:40-15:00	Update CAMS activities relevant to FAIRMODE	L. Rouil
15:00-15:30	EU research programs (Horizon2020, Horizon Europe, LIFE...)	V. Franco
15:30-16:00	Wrap-up
