FAIRMODE CT5,

What's in the next Roadmap?
Which are the community needs?

Wed the 19th, 9:00-10:00

Summary of the previous day's work

Results of yesterday's discussion …

Future roadmap

Which are the community needs on 'best practices for air quality management'?

Do we still need a CT5 group? I.e: should we avoid possible overlaps with other groups, and increase synergies there?

If CT5 is still needed, what should we put in the future Roadmap?

European Commission

Thank you

European Commission
