

2 mars 2023, FAIRMODE plenary meeting

Revision of the AAQD

Matthew Ross-Jones

Air Quality Unit, Swedish EPA

matthew.ross-jones@naturvardsverket.se

Swedish Presidency's plans for the AAQD

- The revision of the Air Quality Directive is an important priority
- Aim to make good progress with Council negotiations during the presidency
- First examination of the proposal within Working Party for the Environment (WPE)
- Begin more detailed discussions on the articles and related annexes

Information on AQUILA's approach

- AQUILA produced 8 different position papers with recommendations for the review of the AAQD during 2021 - 2022
- Commission's proposal was presented during last AQUILA meeting in Nov 2022
- One member raised possibility of creating a document to share views with other AQUILA members
- Subsequent meeting to go through these views
- Aim was to help members in their contacts with the national ministries.
