Table of Content

- The aim of the iResponse project
- What is Crowdsourcing?
- Examples of methods
- Questions

iResponse aims at developing and assessing ICT-based crowdsourcing tools for citizen participation in environmental research and decision-making, and focusing on the urban environment

- a) Air quality _ Wood Burning
- b) Stormwater Management
- c) Urban Planning process

Dictionary

crowdsourcing 

noun | crowd-sourc-ing | \ˈkraʊd-ˌsɔr-sɪŋ\

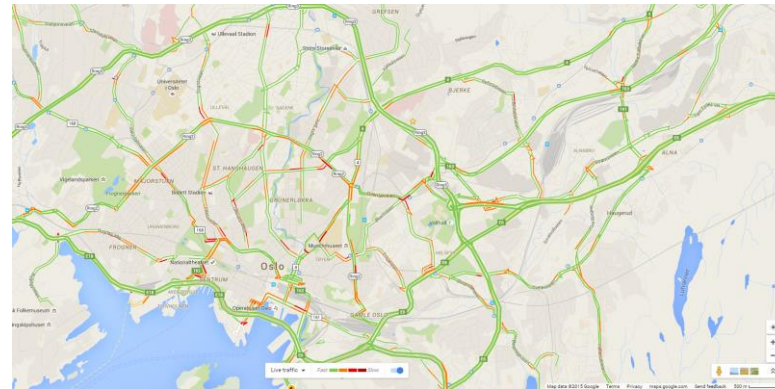

: the practice of obtaining needed services, ideas, or content by soliciting contributions from a large group of people and especially from the online community rather than from traditional employees or suppliers
Source: Merriam Webster Dictionary

What is Crowdsourcing?

Google maps

e.g. traffic flow

e.g. flooded streets (Chennai, India)

e.g. level of hurricane damage for decision making and based on Public Participation

Crowdsourced map helps users choose good bike routes within Berlin

A project of the BMW Guggenheim Lab, Dynamic Connections is an interactive cycle map of Berlin.

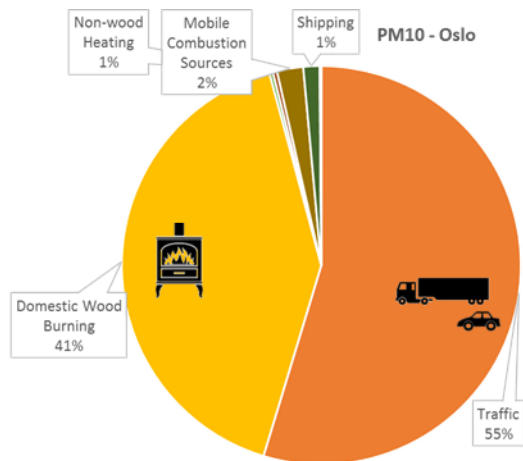

17th September 2012 in Lifestyle & Leisure.

Environmental rating of sidewalks

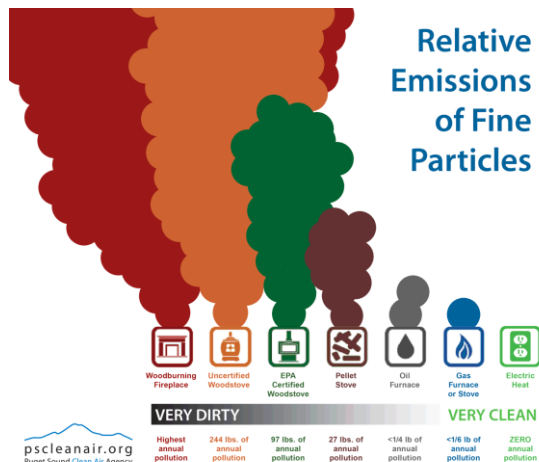

Air Quality – Wood burning

Oslo – PM₁₀ Emissions

$$Emissions_{wood\ burning} = \underbrace{\sum Wood\ Consumption_{type\ of\ oven}}_{DATA} \times EF_{type\ of\ oven}$$

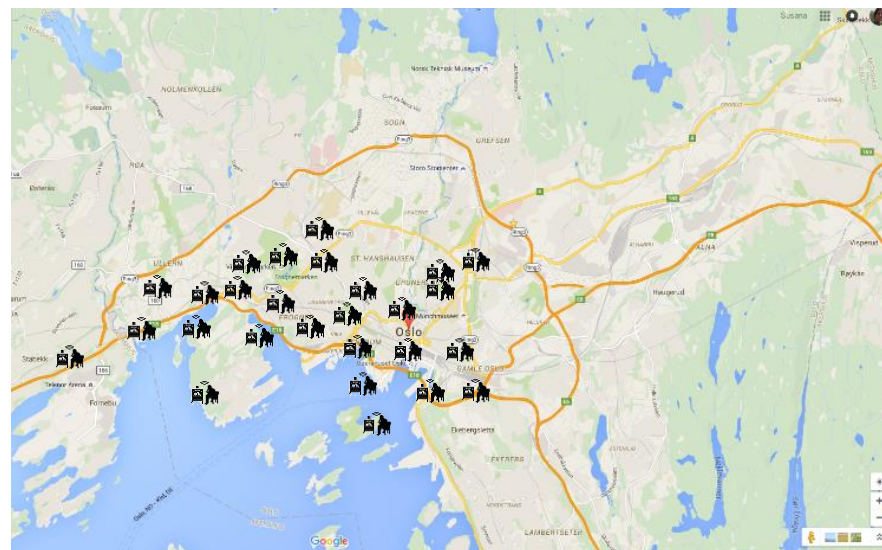

Crowdsourcing

- Wood Consumption
- Type of stove technology

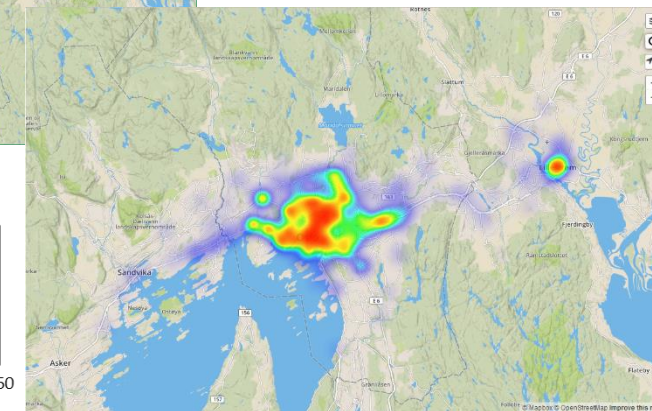

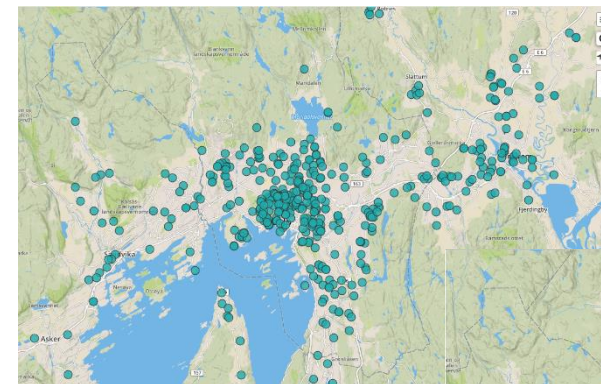

High space and time resolution

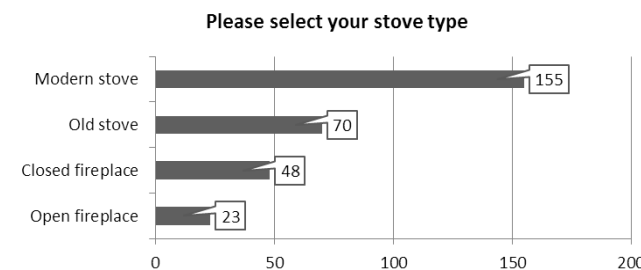

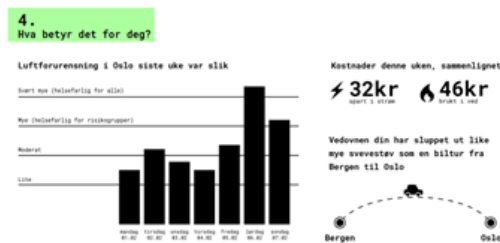

Air Quality – Wood burning

METHOD: PUBLIC PARTICIPATION GIS

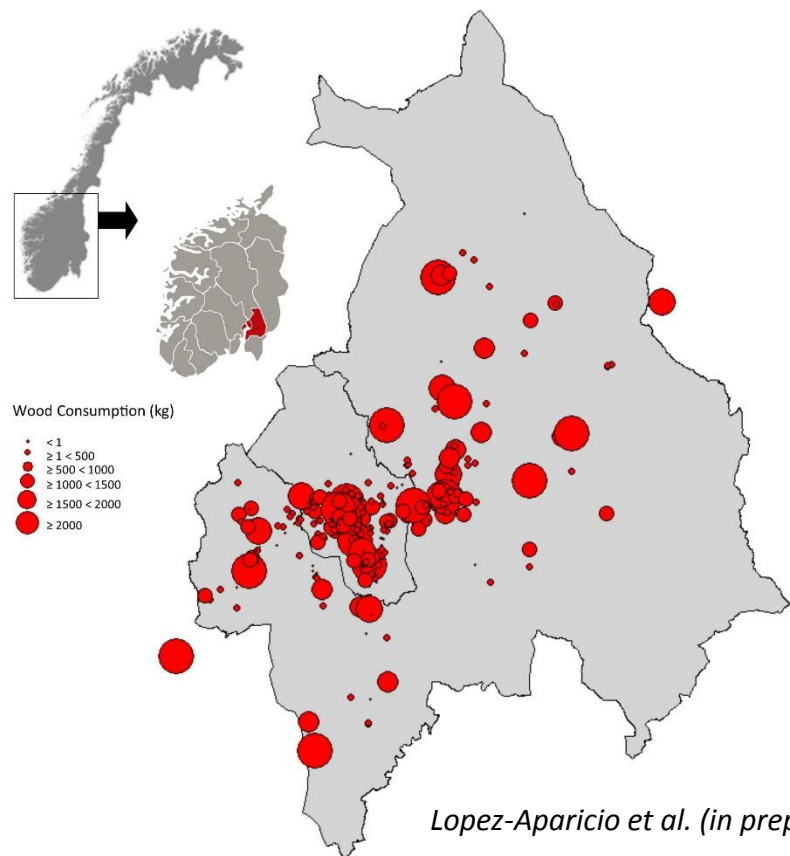

METHOD: CO-DESIGNING A TOOL FOR REPORTING

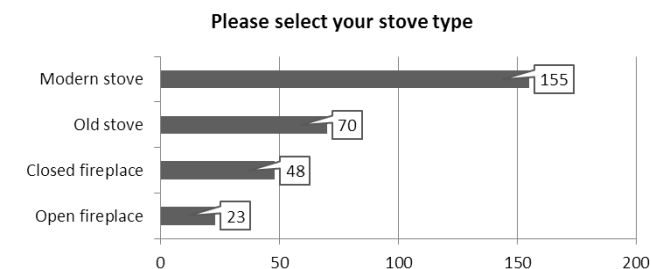

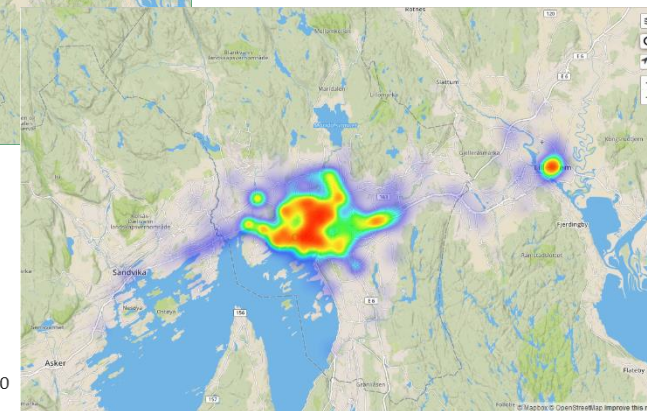

Air Quality – Wood burning

METHOD: PUBLIC PARTICIPATION GIS

← Wood Consumption

Air Quality – Wood burning

METHOD: CROWDSOURCING THE WEB (Web crawling);

Where are the wood stoves?

Method: Web Crawling on www.finn.no (Real Estate Market in Norway)

Results: 78 523 stoves in Norway after 10 weeks crawling

Approx. 15 000 stoves is
Oslo domain after 8 weeks
crawling

Wood Stove Density

Air Quality – Wood burning

METHOD: CROWDSOURCING THE WEB (Web crawling);

Where are the wood stoves?

Method: Web Crawling on www.finn.no (Real Estate Market in Norway)

Results: 78 523 stoves in Norway after 10 weeks crawling

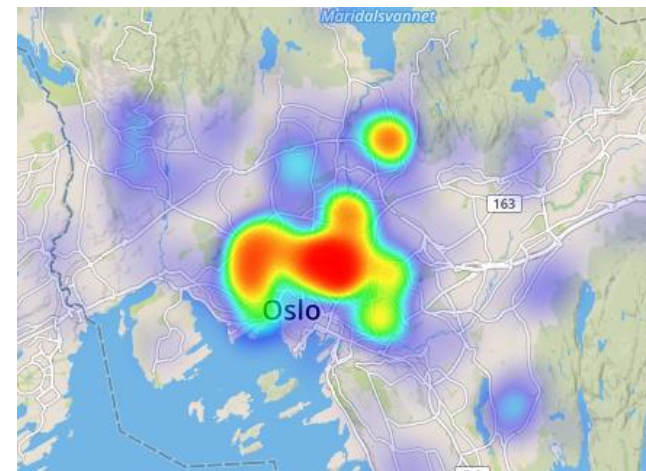

Approx. 15 000 stoves is
Oslo domain after 8 weeks
crawling

Wood Stove Density

Wood Smell Perception

Air Quality – Wood burning

METHOD: CROWDSOURCING THE WEB (Web crawling) + IMAGE RECOGNITION (Neural Network);

Which type of stove are?

Method: Web Crawling on www.finn.no (Real Estate Market in Norway)

Results: 78 523 stoves in Norway after 10 weeks crawling

«vedfyring, peis, vedovn, ildsted; Oslo»
