The 4th EU Clean Air Forum

- The European Commission is organising the fourth EU Clean Air Forum in close collaboration with the Ministry for Infrastructure & Water Management of the Netherlands.
- It will be hosted by the Netherlands on 23 and 24 November 2023.
- The event will take place on the ss Rotterdam in the port of Rotterdam.
- Registration open already via the Forum webpage at: https://environment.ec.europa.eu/events/fourth-eu-clean-air-forum-2023-2023-11-23_en

The 4th EU Clean Air Forum

Themes for the 4th EU Clean Air Forum

Linking Clean Air, Climate and Social Inequality

Maritime Shipping and Air Pollution

Multimodal transport and spatial planning for clean air

Skill and jobs for clean air

Revision of the Ambient Air Quality Directives

Spreading knowledge for cleaner air

Non legislative updates

- Service contract to support the development of technical guidance documents in the field of air quality monitoring and modelling
 - a) Technical guidance document on the **use of reference methods and demonstration of equivalence**, and the assurance of relevant **data quality objectives** (including for established and additional air pollutants) for air quality monitoring
 - b) Technical guidance document on the use of modelling for various application domains under the Ambient Air Quality Directive, and the assurance of relevant data quality objectives for air quality assessments.**
- **Time frame:** March 2025.
- **Contractor:** NILU, VITO, and Ricardo Nederland B.V plus group of 5 experts on the field.

Horizon Europe Calls

- Negotiations are on-going for including air quality monitoring and modelling in the Horizon Europe Work Programme 2025-2027.
- Concrete and specific ideas with a description are welcomed.
- The timeline of the process is still unclear, but experience has learned that once the drafting starts, there is little time for input.
