

CT1 - Source apportionment

Introduction

FAIRMODE

Forum for air quality modelling in Europe

Agenda

- Introduction [A. Clappier] – 5'
- TNO experience [R. Timmermans] – 15'
- AAQD Modelling guidance), [G. Pirovano] – 15'
- NO2 exercise [G. Pirovano] – 5'
- CEN/WG44 [A. Clappier] – 5'
- Exercise SA methods [A. Clappier, G. Pirovano, P. Thunis] – 65'

CT1 - Source apportionment

CEN/WG44

FAIRMODE

Forum for air quality modelling in Europe

Main Points

- Nomination of the new convenor (A. Clappier) and co-convenor (G. Pirovano).
- Discussion about the pollutants which should be considered (PM for sure, NO₂ and O₃ potentially).
- Overall scope: « Source Apportionment Protocol to Support the Design of Air Quality Plans »
- To agree on scope an exercise about the definition of a Source Apportionment method was made.
